

# MovieShare Feature Sheet

Version 1.0  
December 2012

*This feature sheet covers the OS X and iOS versions of MovieShare.*

MovieShare is the easiest way to share movies between any iPhone, iPad, iPod Touch and Mac.

**One Touch Sharing.** MovieShare eliminates the time consuming and frustrating iTunes sync workflow. Open MovieShare on your Mac, then on any Apple mobile device running iOS4 or greater, the just drag a movie onto MovieShare and everything is taken care of.

**Anyone.** MovieShare operates outside of the Apple ecosystem and allows you to share movies with anyone running MovieShare.

**Anywhere.** All you need is a Wi-Fi network and you are ready to share. Start MovieShare on the devices you want to share with and it's two taps to share a movie.

**Any Device.** MovieShare works perfectly on the iPad, iPhone and iPod Touch (it's a Universal app). We also have a full-featured Mac app, available through the Mac App Store and shedworx.com, which works seamlessly with the iOS versions.

**Any Movie.** MovieShare (paid Upgrade) contains the Smart Converter conversion engine as used in the best selling video converters, Smart Converter and Smart Converter Pro. The Smart Converter engine takes care of converting almost any video format into the format you need on your device.

**Upgrade (iOS)** - MovieShare for iOS includes an In-App purchase to unlock the following features:

- *Capacity Management* - MovieShare takes a proactive role in helping you manage the space that your movies take up on your device.
- *Smart Parsing* - downloaded TV shows follow a standard naming pattern. We enable the control of our 'Smart Parsing' feature to display TV shows in a more readable manner.
- *Sorting* - Movies are sorted by date added by default. This settings lets you sort by a number of different methods.
- *No Ads* - we use ads to promote the use of the MovieShare desktop app, and other Shedworx apps. The Pro version contains no ads.

**Upgrade (OS X)** - MovieShare for OS X also includes an In-App purchase to unlock the following features:

- *Smart Converter Engine* - the engine behind the worldwide best-seller converter apps is integrated into MovieShare for the ultimate in ease-of-use.
- *Concurrent Sharing* - share multiple movies to multiple devices all at once.
- *More Control* - The base version of MovieShare includes a bunch of settings that we set to the defaults that most people want, most of the time. The upgrade exposes these settings so that the user can take more control.
- *No ads* - we run ads on the free version of MovieShare to promote various things including the Pro upgrade. No ads are displayed in the Pro version.

## **Pricing**

MovieShare for iOS and OS X are fully-functional free apps available through the respective App Stores.

MovieShare for OS X is also available as a free download on [shedworx.com](http://shedworx.com).
